OTP Initiatives

Ritesh Warade, Jon Campbell, IBI Group

January 2017

IBI Group's Role

Program Management

Coordinate, manage, and document the OTP SUM development process

Outreach with other active OTP initiatives and broader OTP development community to facilitate collaboration

2009: Initial Workshop hosted by TriMet

2011: Second Workshop

2013: OTP becomes primary trip planner at TriMet

2013-14: Adoption in the Netherlands

2014: OTP powers new commute planning site in Arlington VA

2015: OTP powers trip planning statewide in New York

2016: OTP launches at RTD in Denver CO

MOD Sandbox Grants:

TriMet: OTP-SUM project

VTrans: OTP with GTFS-flex support

Other Agency Projects:

RTD: phased deployment of OTP-based trip planner

Collaborative Efforts:

Work on GTFS-Flex and GBFS data standards

Work of best practices guide for GTFS

Establish a vision for Open Trip Planner incorporating the various OTP initiatives underway

Kickoff and coordinate technical development for the TriMet OTP SUM project

Everyone leaves workshop with common understanding of:

- 1.) What their development objectives are
- 2.) What they need to do to meet TriMet technical requirements
- How their tasks interface with the other components of the project and broader OTP ecosystem

Thank You,

Questions?

IBI
